About Me

I'm an enthusiastic third-year Computer Science student deeply passionate about coding, Data analyst and web development. With three years of dedicated study, I'm poised to tackle new challenges and drive innovation in these fields. I'm committed to lifelong learning and leveraging technology to create cutting-edge solutions."

Education

Sree Dattha institute of engineering and science

B tech in Computer Science and Engineering

Tomi Polytechnic College Basar

Diploma in Computer Science and Engineering

Hyderabad, India

oct 2022 – oct 2025

Arunachal Pradesh

July 2019 – July 2022

Project

ECOMMERCE WEBSITE

- The project begins with a well-structured HTML document that mirrors the hierarchy of elements found on the Amazon website. This includes the header, navigation bar, product grids, footer, and other essential components.
- A comprehensive CSS stylesheet is employed to emulate Amazon's distinctive design. This involves carefully selecting fonts, colours, and spacing to replicate the visual appeal of the original interface. The use of CSS also facilitates the responsiveness of the clone, ensuring a seamless experience across various device
- "Accomplished front-end web developer with a passion for creating visually stunning and user-friendly interfaces. Proficient in HTML, CSS, and JavaScript, with a keen eye for design details. Demonstrated ability to replicate complex interfaces, as displayed in the Amazon Interface Clone project. Committed to delivering responsive and engaging web experiences. Seeking opportunities to contribute technical expertise and creativity to dynamic projects."

CONSUMER DATA ANALYSIS OF A GROCERY SHOP

- **Statistical Analysis:** Demonstrated capability in conducting statistical analysis within Excel, employing tools such as descriptive statistics, regression analysis, and hypothesis testing to extract valuable information from datasets.
- **Data Visualization Skills:** Developed and designed compelling visualizations using Excel charts and graphs to present complex data in an accessible and understandable format, aiding in decision-making processes.
- **Strategic Decision Support:** Contributed to data-driven decision-making by providing actionable insights through the interpretation of Excel-based analyses, enabling informed strategic planning and resource allocation.
- **Problem Solving:** Applied analytical skills to identify patterns, trends, and outliers in datasets, offering solutions and make data driven decision making for good support in business.

Skills & Languages

Technical: HTML, CSS, JavaScript (basic), sql(basic), Java, C++, MS Excel.

Visualization: power Bi

Soft & Other Skills: Excellent verbal and written communication skills, presentation, Attention to Detail, Problem Solving, Multi-tasking, Eagerness to Learn and developed, and a growth mind-set.

Languages known: English, Hindi.

Certificates

Certified on basic of fundamental of data, data, everywhere from google provided by Coursera. [Link](#)

Certified on Ask Question for Make Data Driven Decision from google provided by Coursera. [Link](#)
